

Mithra Issues a Put Option Notice Under Capital Agreement with LDA Capital

Liege, Belgium, 20 December 2021 – 17:45 CET – Mithra (Euronext Brussels: MITRA), a company dedicated to Women's Health, today announces the issuance of a put option notice, according to the terms of the capital commitment agreement signed with LDA Capital Limited on April 24, 2020¹. Under the terms of this agreement, LDA Capital commits an amount of up to EUR 50 million in cash within a maximum of three years in exchange for new ordinary shares in Mithra. This is the third put option notice related to this agreement, after the first issued on May 29, 2020² and the second issued on July 02, 2021³. These two put option notices resulted in the issuance of 473,962 shares for a total amount of EUR 8,832,046.

The completion of the capital increase is subject to the subscription of the new shares by LDA Capital Limited, amounting to a maximum of 442,191 new shares, and that should take place during the first quarter of 2022. The new shares will be issued at an issue price determined by the Volume Weighted Average Price (WVAP) of the Company's shares on Euronext Brussels during a period of 30 consecutive trading days, subject to certain adjustments specified in the capital commitment agreement.

About Mithra

Mithra (Euronext: MITRA) is a Belgian biotech company dedicated to transforming Women's Health by offering new choices through innovation, with a particular focus on contraception and menopause. Mithra's goal is to develop products offering better efficacy, safety and convenience, meeting women's needs throughout their life span. Mithra explores the potential of the unique native estrogen estetrol in a wide range of applications in women health and beyond. After having successfully launched the first estetrol-based product in 2021, the contraceptive pill Estelle®, Mithra is now focusing on its second product Donesta®, the next-generation hormone therapy. Mithra also develops and manufactures complex therapeutics in the areas of contraception, menopause and hormone-dependent cancers. It offers partners a complete spectrum of research, development and specialist manufacturing at its technological platform Mithra CDMO. Active in more than 100 countries around the world,
